Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
This area of land is unsuitable for development because it will add additional traffic to an already busy area. The access to this site is through the existing estate and via Lancaster Lane which is narrow and totally unsuitable for motor vehicles. The volume of traffic in this area has doubled within the last 7 years, and being a pedestrian is very precarious. The additional traffic coming from this development will only increase these dangers to children and adults. It is important to remember that every day during school term times, there are large numbers of school children walking to and from school, and this development will add increased dangers to these daily walks. Please take into consideration pedestrian safety, I understand there has already been a fatality on the crossing, which is close by to the proposed access point.
