2021/90540

Highways Development Management (HDM) comments as follows.

This application is at Queen Street South Car Park, Queen Street South, Huddersfield. The proposal is for the re-configuration of the existing car park, erection of charger control building and 5 vehicle charger posts, and gates and railings to the boundary.

The car park will lose 1 disabled parking space due to the proposals.

Each parking space has the correct dimensions of 2.4m x 4.8m and the disabled parking space has a sufficient 1.2m gap surrounding the space.

All the parking spaces are accessible.

Highways Development Management has no objection to the proposals and therefore considers the application acceptable with no conditions.
