What is the application for?:	Redevelopment and change of use of former mill site to form seven residential un
Address of the site or building:	Hinchliffe Mill, Water Street, Holmbridge, Holmfirth, HD9 2NX
Postcode:	S72 8BE

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
The infrastructure around and leading to the site are not adequate for the amount of dwellings proposed, with this being on a bus and school route the narrow roads will make it difficult for this addtioanal traffic, of course in some points of the road are wider but on average it is even now far too small for two cars to pass. There is already a lack of pavement on the route therefore more traffic will make it dangerous to pedestrians. If these dewellings are aim at families I also believe the attention should be paid to the local school and also communal facilities such as the local recreational ground which to be honest needs updating and making safe for use. (Ripping it out should not be sololution to the problem) but adding to local facilities should be at the forefront of this if trying attract more people to the village. I do not want to see the mill site run down therefore do support some aspects of the development but not to amount of dewellings propsed. Furthermore the redevelopment will be distributing wildlife, bats and birds such as kingfishers and owls, I would hope that should the plans be passed that conservation of these species will be considered.
