Subject: For Info and action: Planning Objection (2021/62/90800)
Date: 27 March 2021 13:18:35

Dear Christopher

I am writing to object about the planning of this controversial house building development as I am concerned about the over intensification of the proposed site, with an increase in the number of new build houses. I understand that the existing infrastructure is incapable of supporting the proposed number of additional dwellings.

I am also concerned about the Public Rights of Way access to public footpath Holmfirth 95/10 which will be unlawfully obstructed and interfered with. Wildlife will be irreparably damaged within this very popular conservation area.

I am also concerned about the proposed access which does not meet the required standard Eg Spring Lane

I am concerned about the unacceptable impact on highway safety and severe impact to the surrounding road network.

I trust that you will reconsider this planning application so that all parties are happy with the proposals, at this time.

With regards
