In regards to the proposed demolition of 12 Thorhill park avenue, and the proposed new build,A large house usually means larger occupancy and more cars,at present there is only parking for one car in front of the property.we have an ongoing issue regards to parking.Cars often parked on the road and in the turning area making it very difficult for any vehicle to turn round.Also in my view a such a large house is not in keeping with the bungalows on the avenue,The disruption caused to the reidents is of great concern
