166 Bradley Road, HD2 1QT

To whom this may concern, the above planning application was brought to our attention from someone who actually walks on Bradley road noticed the sign on a tree and came to ask if we had seen the notice or been notified. Having read the sign and looked at the plans we at 166 Bradley road have realised that this single storey building will be higher than the one currently in place. It will over shadow our garden and reduce natural light, this building will be a bit of an eye sore when looking out of our window, and this will also have a negative impact on the value of our property.
