Dear Mr. Harrison,

PLANNING APPLICATION 2021/90967

I wish to object most strongly to the planning application 2021/90967 which I understand is being managed by you.

My objection is based on the following factors:--

Both Number 4 Elm Court and my property at Number 3 Sycamore Court are mature bungalows and enjoy a large degree of privacy as neither are overlooked by taller buildings in the near vicinity.

Converting Number 4 Elm Court to a two-storey building would have obvious and very real privacy implications for me as my rear garden would be entirely overlooked as would all the rear windows of my property.

As a long standing resident of Highburton where I served as the local GP for many years I am appalled that such building works are even under consideration. I cannot, of course speak for other residents but it is clear that several other properties will suffer privacy issues that are entirely avoidable.

Again, I request that planning permission be denied and existing residents left to enjoy the privacy they have for long experienced.

Regards,
