

66 Blacker Road, Birkby

Heritage statement

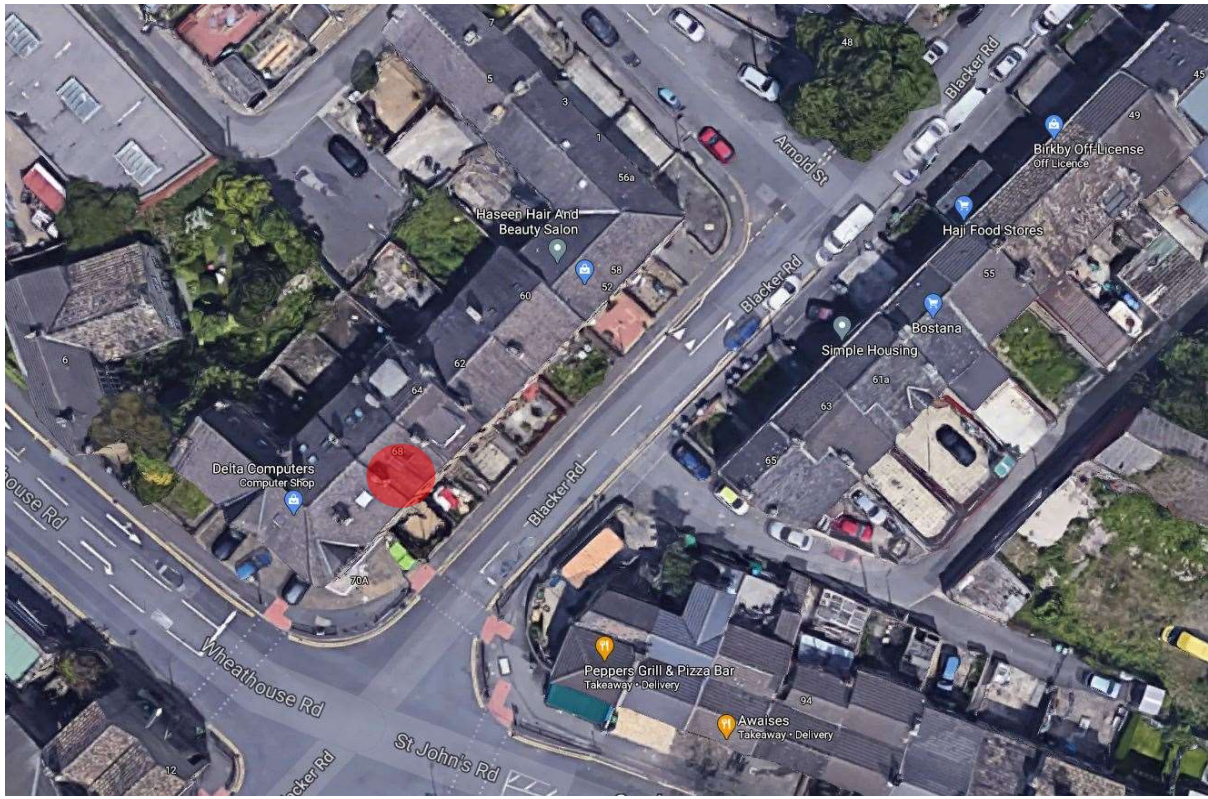

The Property is situated within the Birkby conservation area. The property is a 4 storey terraced house. The area to the front of the property is Blacker road, opposite the site is commercial premises and to the rear of the property are residential properties and parking areas. The proposed conversion is to include for front and rear dormers. The neighbouring property at 64 blacker road currently has a front dormer which isn't in keeping with the visual amenity of blacker road. The proposed dormers will be constructed in materials that match the roofs of the terraced houses on blacker road so as to not be detrimental to the visual amenity of the street.

The proposed changes to the external appearance of the existing building are those of the front and rear dormers, the remainder of the property will remain in its current form.
