| <p>I am writing to OBJECT to the above planning application on the following grounds. I have concerns on the loss of privacy these builds would create to my outdoor space. It's appears like the plans show to be squeezing too many houses on the size plot of land and building applications for less houses has been denied in the past. Child lane is already a extremely busy road as it stands. To add four more houses on this road would add to this problem and cause a bigger traffic generation. Also it's a blind bend on which the entry and exit for these houses would be. This is a concern in regards to highway safety.</p> <p>The proposed plans are to remove Hawthorne hedge row and trees. The loss of trees is a great concern in regards to nature conservation. The wildlife just to name a few birds, which are evidently present and have been for many years would loose their habitats.</p> <p>Through many years of experience in regards to flooding/high water table in my own garden and neighbours is extremely worrying as further development would make this Problem worse and increase the water table.</p> <p>How would this issue be taken care of with the new developments?</p> <p>Regards</p> |    |
