I live at 39 Wakefield Rd Tandem, 2 minutes walk from the garage. It's a shame that the garage is closing down, but I know how difficult it must be to compete with online shops and supermarkets. I normally walk to work in better weather and there is 2 pelican crossings right on the corner next to the garage so I'm afraid I don't agree with the other resident's comments on here...It is perfectly safe to cross! The café and takeaway culture is as much a social thing as a necessity these days. A coffee or a sandwich and a natter on the way to work is a great way to start the day... Also on the plus side, I don't have to navigate my way through the dreaded retail park. I hope it's a local business and not a big Company. Good for local jobs too!!
