Further Comments to Planning Application 2021/62/91239/W - 410/412 Birkby Road

Date:

27 June 2021 20:23:11

Dear Mr Bearcroft

We note that amended plans have been submitted by the applicant for the above planning application, however it would appear that none of the interested parties have been informed by yourselves.

I would also like to note that you didn't respond to my previous telephone conversation with your office, a ticket was logged by Cathy, 421790, however I think I managed to get the information that I required through other means.

I would like you to know that we will be submitting additional comments, we would appreciate if you and the planning committee would consider the points made in order to make this a fully rounded decision.

This may take a little time to fully digest the changes made and to be able to make a sensible and measured response. Please could you tell us how long we will be given to respond to the changes made?

At the moment our existing objections still apply in full.

Yours sincerely
