

Town and Country Planning Act 1990

**Town and Country Planning (Development Management Procedure) (England) Order
2015**

PLANNING PERMISSION FOR DEVELOPMENT

Application Number: 2021/62/91270/E

To: Damian Walsh,
Martin Walsh Architectural
Firth Buildings,
99-103, Leeds Road
Dewsbury WF12 7BU

For: MARTIN WALSH, MARTIN WALSH ARCHITECTURAL

In pursuance of its powers under the above-mentioned Act and Order the KIRKLEES COUNCIL (hereinafter called "The Council") as Local Planning Authority hereby permits:-

CHANGE OF USE FROM DWELLING (C3) TO OFFICES (CLASS E)

At: 30, LEEDS ROAD, DEWSBURY, WF12 7BG

In accordance with the plan(s) and applications submitted to the Council on 12-Apr-2021, subject to the condition(s) specified hereunder:-

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and to ensure the satisfactory appearance of the development on completion, and to accord with Policies LP1, LP2, LP3, LP7, LP9, LP20, LP21, LP22, LP24, LP28, LP30, LP33, LP47, LP51 and LP52 of the Kirklees Local Plan (2019), Chapters 2, 6, 8, 9, 11, 12, 14 and 15 of the National Planning Policy Framework and the provisions of the Highway Design Guide SPD (2019).

3. Notwithstanding the provisions of the Town and Country Planning (Use Classes) Order 1987 (as amended), or any Order revoking or re-enacting that Order, the building shall be used solely as offices as defined by Class E(g)(i) of that Order and for no other purpose whatsoever including any other purpose within that Class.

Reason: To enable the Local Planning Authority to retain a degree of control over the use of the building as other uses within Class E may not be considered appropriate here for planning policy, highway safety and/or neighbour amenity reasons.

4. Details of the proposed layout of the car parking area shall be submitted to the Local Planning Authority for its written approval. These details shall include the means of surfacing of that area, a dedicated area for the storage of refuse and measures to ensure that surface water does not drain onto the adjoining highway. The approved scheme shall be completed in full, including the marking out of the approved parking spaces and the construction of the refuse storage area, before the offices hereby approved are first occupied. It shall, thereafter, be retained at all times, solely for the parking and circulation of vehicles in conjunction with that development, to allow those vehicles access to and from the site, and for the storage of refuse.

Reason: In the interests of visual amenity and highway safety, in accordance with the requirements of Policies LP21, LP22 and LP24 of the Kirklees Local Plan (2019), Chapters 12 and 15 of the National Planning Policy Framework and the provisions of the Highway Design Guide SPD (2019).

5. A scheme detailing the dedicated facilities to be provided for charging electric vehicles and other ultra-low emission vehicles shall be submitted to, and approved in writing by, the Local Planning Authority. The scheme shall meet at least the following minimum standard for numbers and power output:

- One Standard Electric Vehicle Charging Point for every 10 unallocated commercial vehicle parking spaces.

The approved scheme shall be completed in full before the approved offices are first occupied and, thereafter, shall be satisfactorily retained at all times.

Reason: In the interests of securing sustainable development and air quality enhancement in accordance with the requirements of Policies LP20, LP24, LP47 and LP51 of the Kirklees Local Plan and Chapters 2, 9 and 15 of the National Planning Policy Framework.

NOTE: To safeguard nearby residential properties from excessive construction noise at certain times of the day it is recommended that any noisy construction activities are limited

to between the hours of: 07.30 to 18.30 hours, Mondays to Fridays, 08.00 to 13.00 hours, Saturdays, with no noisy activities on Sundays or Public Holidays.

NOTE: For your information Kirklees Council has powers under Section 60 of the Control of Pollution Act 1974 to control noise from construction sites and may serve a notice imposing requirements on the way in which construction works are to be carried out. It has additional powers under Section 80 of the Environmental Protection Act 1990 to prevent statutory nuisance including noise, dust, smoke and artificial light and must serve an abatement notice when it is satisfied that a statutory nuisance exists or is likely to occur or recur. Failure to comply with a notice served using the above-mentioned legislation would be an offence for which the maximum fine on summary conviction is unlimited.

NOTE: A Standard electric vehicle charging point is one which can provide a continuous supply of at least 16A (3.5kW). A 32A (7kW) is, however, more likely to be futureproof

- At non-residential developments, the requirement for one standard electric vehicle charging point for every 10 parking spaces may initially be reduced to one charging point for every 20 parking spaces with the remainder provided at an agreed trigger point.
- For developments where some or all the parking is likely to be used for shorter stay parking (30mins to 4 hours) then Fast (7-23kW) or Rapid (43kW+) charging points may be more appropriate. If Fast or Rapid charging points are proposed together with restrictions on the times that vehicles are allowed to be parked at these points, then a lower number of charging points may be acceptable.
- The electrical supply of the final installation should allow the charging equipment to operate at full rated capacity.
- The installation must comply with all applicable electrical requirements in force at the time of installation.

Plans and specifications schedule:

Plan Type	Reference	Version	Date Received
Location Plan	MWLA-MWA-XX-XX-DR-A-0001	P1	12/04/21
Topographical Survey	K14/666/01		12/04/21
Existing Floor Plans	MWLR-MWA-XX-ZZ-DR-A-0004	P1	20/05/21
Existing Elevations	K14/666/04		12/04/21
Proposed Floor Plans	MWLR-MWA-XX-ZZ-DR-A-0002	P1	20/05/21

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Authority has, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the agent in dealing with the application.

Building Regulations Approval is required for most work involving building operations and/or structural alterations. It is the applicant's responsibility to find out if the work permitted by this planning permission needs approval under the Building Regulations, and if necessary to submit an application. If you are not the applicant can you please ensure the applicant is aware of this requirement. Contact Building Control on Tel No: (01484) 221550 for more information.

It is the applicant's responsibility to find out whether any works approved by this planning permission, which involve excavating or working near public highway and any highway structures including retaining walls, will require written approval from the Council's Highways Structures Section. Please contact the Highways Structures Section on Tel No. 01484-221000 Ext 74199 for further advice on this matter.

Details Reserved by Condition

- This permission has been granted subject to conditions. Some of the conditions may require you to submit further details. These conditions normally contain the wording “*submitted to and approved in writing by the Local Planning Authority*”.
- You can apply online for approval of these details at the Planning Portals website at www.planningportal.gov.uk. Alternatively the forms and supporting guidance for submitting an application can be found online at www.kirklees.gov.uk/planning.
- This Authority recognises the need to ensure that you are able to develop the site as effectively and flexibly as possible. However, at the same time it must ensure that development is in accordance with the terms of the planning conditions and legal agreement and the expectations of elected members and local residents set through the decision process.
- You should note the triggers for compliance with the conditions of this planning permission. This Authority is committed to processing applications to discharge conditions in a timely manner. It is important to ensure that submissions are made as far in advance of the trigger to allow time for adequate consultation, discussion and in some circumstances publicity.
- It is important that applications to discharge conditions are accompanied by sufficient information to enable this Authority and its consultees to fully consider and determine the proposals. Whilst officers will endeavour to negotiate solutions, failure to provide a comprehensive submission may result in delay and refusal of the application.
- If you commence work without discharging conditions you are at risk of enforcement action and invalidating your permission if the planning condition is a pre commencement condition.

Development within a Coal Mining Area

The proposed development lies within an area that has been defined by the Coal Authority as containing potential hazards arising from former coal mining activity at the surface or shallow depth. These hazards can include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such hazards are seldom readily visible, they can often be present and problems can occur in the future, particularly as a result of new development taking place.

It is recommended that information outlining how former mining activities may affect the proposed development, along with any mitigation measures required (for example the need for gas protection measures within the foundations), is submitted alongside any subsequent application for Building Regulations approval (if relevant).

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Coal Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure that a suitable engineering design which takes into account all the relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Coal Authority Policy in relation to new development and mine entries available at:

www.gov.uk/government/publications/building-on-or-within-the-influencing-distance-of-mine-entries

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is trespass, with the potential for court action.

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at:

www.gov.uk/government/organisations/the-coal-authority

The application has been publicised by notice(s) in the vicinity of the site. It is respectfully requested that the notice(s) now be removed and responsibly disposed of to avoid harm to the appearance of the area

Appeals to the Secretary of State

- If you are aggrieved by the decision of your Local Planning Authority to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your Local Planning Authority's decision on your application, then you must do so within:
 - i) 28 days of the date of service of the enforcement notice, or
 - ii) within the specified period, starting on the date of this notice,whichever period expires earlier.
- If you want to appeal against your Local Planning Authority's decision then you must do so within the specified period, starting on the date of this notice.
- The "specified period" is 12 weeks where the development relates to a "minor commercial application" as defined within the Town and Country Planning (Development Management Procedure) Order 2010 (as amended), or 6 months in any other case.
- Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/planning-inspectorate> . Further information on the Planning Appeal process can be found online at the Planning Inspectorates website <https://www.gov.uk/government/organisations/planning-inspectorate>.
- You must use the correct Planning Appeal Form when making your appeal. If requesting forms from the Planning Inspectorate, please state the type of application that the appeal relates to so they can send you the appeal form you require.
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

Please note, only the applicant possesses the right of appeal.

Purchase Notices

- If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

An important part of improving our service is to review your feedback on the way that we have dealt with your planning application(s). Please take a couple of minutes to email your comments to dc.admin@kirklees.gov.uk so that we can work on continually improving our customer service. Thank you.
