Not happy at all with this planning ,we and our family have been here over 21 years, we have 3 grand children ,we do not want any car coming in or out of parking area at the back of fitzwilliam street , It will disturb our children , This will be a hazard for us and our children ,This is our privacy , we do not want to put our children in danger, They should be free to play outside,Not happy with the residential house at all. Wish this planning had not gone ahead at all. You have no concidertion . For others, at all.
