<p>I take exception to numerous errors on the application viz 1) has the building work started answer no, but trees have been felled and a hard standing created in place of grass and shrubs. 6) is a new or altered vehicle access proposed answer no, but the wall has been demolished and tree felled to the east to access proposed car park. 10) vehicle parking 10, as far as I can see there are 4 dedicated spaces on waverley road, the rest are restricted. 15) trees and hedges- see comments by KMC trees ! 18) non residential floor space- is this not a change of use? Almost totally in accord with response from KMC trees except they state "proposals include formation of car parking between Waverley House and church larger than previous", this area has never been in use as a car park and has been created without planning permission. The response from KMC highways also refers to 10 existing spaces- these are not existing.</p>
