

I am very concerned about the new development. . i live on Church Lane, and the amount of traffic that goes up and down the street all day, as well as when people drop off and pick up children for school its an accident waiting to happen. Also there are stables who take their horses up and down church lane every day, can you imagine with all the houses going up, with more cars and vans , if there are 2 cars per household it will be a nightmare. plus more planning has gone in for 200 plus houses to be built at the top of church lane across from the golf course,it's unbelievable. .What about schools , dentists , doctors has anyone thought about that, the people who already live here have a job finding one, And even more worrying is all the lovely green fields that are disappearing through new builds ruining the countryside, regards
