Broad Oak Planning Consultation (Land to the South of The Lodge & North of Church Lane) Site HS129 Adopted Local Plan. Application number 2021/91571

Dear person at planning,

I am 13 years old and am worried about new houses.

I would like to save these fields because its really nice to come out on a peaceful night and see bats and the buttercups look really majestic. I would like to see these when I am grown up as a memory of my childhood. I have been learning about saving the environment in school and these houses will destroy our global environment forever. This won't help any children now or in the future which would make me very sad.

I like to play with my trains outside and not feel uncomfortable from people being able to see me.

I don't like loud noises and this will be a problem during and after the houses are built

My primary school at Linthwaite Ardron is already full says my Mum
and I've been told that Colne Valley High School is also full.

I like looking at the stars & planets at night with my Dad and this may not be possible with new lights from streets & houses.

Please listen on behalf of Kids
