Having looked at the revised plans I still have concerns regarding kinder Avenue access, the new proposed builds road is a much smaller road than kinder Avenue and at the access point that is been considered to kinder for new builds there is an entrance from land adj to 143, and doubled parked cars also a junction across across from 137 kinder With traffic entering and exiting in the area between houses 137-143 with these problems , traffic will not be able to pass safely on both sides of road, and force traffic to give way by reversing into a busy junction or pedestrians crossing. Surely the entrance to the new proposals requiring access to kinder can only be safe if it is a one way access point to new builds The plans also do not seem to account for enough parking spaces for residents and visitors Which will cause even further problems with parking
