**Subject:** URGENT - PLANNING OBJECTION - APPLICATION NO 2021/62/91682/W. WALL NOOKS, WALL NOOK LANE  
**Date:** 03 June 2021 17:07:03

---

Further to the above numbered planning application, we wish to place an objection prior to the end date of 8th June 2021.

We have only just heard about this and feel that due to the nature of the application, all residents in the surrounding areas should have been made aware. Also a public consultation where we were able to put forward our views and comments.

The reason for our objection against the change of use from dwelling to residential children's care home is that the location is totally unsuitable.

It is an extremely quiet residential area, with a rural farming community. There is no public transport nearby, no street lighting from a safety aspect and no recreational facilities to cater for young troubled teenagers with behavioural problems. This could potentially lead to anti-social behaviour and vandalism.

After sharing our views with neighbouring properties, we all feel the same and that there are far more suitable locations which have the facilities to cater for children with behavioural problems.

We hope that you will consider the points we have raised. Please don't hesitate to contact us if you require any further information.
