Having spent a large part of my teaching career working in exactly this scenario, I am fully aware of the business model and strategy of companies like Compass Children's Homes Ltd Young people in these homes will have exhausted their relevant local authorities and have been offered this type of service. Please be aware of the implications of this accommodation to the immediate community. I have horses living at my property close by and am greatly concerned. I worry about safety and security. I know that these young people always have a negative impact on their neighbours. The description of problematic sexual behaviour must give serious concern to the young families in the immediate locality. Whilst the area maybe described as rural we are not isolated and there are significant wooden barns and other farm buildings housing fodder, bedding and life stock. These are not suitable playgrounds for youngsters who are not familiar with country life I can only seek reassurance that robust risk assessments are employed and rigorously adhered to. I feel that there will not be adequate staffing to support these children. Looking at reviews from past employees via 'indeed' and other sites they do not fill me with confidence that this will be the situation here. I am objecting to this proposal in its current form.
