| <p>Tetra Tech are hardly going to give any negative comments being the customer of Compass and stating other places in the County have approved rural plans for similar homes in the past means nothing. Their circumstances in terms of access to public transport, safe local highways/ pavements and use of the area by women and children may be completely different to the location of this application.</p> <p>Most complaints are about the welfare of the children being stuck in a location that would lead to boredom and lack of access to sports and social activities. These type of Children deserve a chance in life but putting them out in the sticks like this isnt good for them and if as expected they have issues that puts temptation in front of them certainly not safe for the dozens of women and children using the area for walking, jogging, horse riding, cycling etc.</p> <p>Please reject the plan and consider the Tetra Tech pleading for what it is - corporate interest not the children's.</p> |     |
