We are the neighbouring detached property at 33 Whitley Road. We would very much like to make a comment (not an objection) regarding the safety standards from our perspective. This is specifically, due to the proposed suspended driveway been above us and how it might impact on us. We would like to be reassured that the proposed suspended driveway will comply with all regularity and safety standards and that planners will view the plans from our orientation beneath. In addition, we would like to understand how the structure will look aesthetically and more about the size and structure from our perspective.
