I can't comment on the noise or disturbance aspect of this application as other residents have, as I live far enough away to not be disturbed. I would like to raise an objection, however, due to the idiotic parking that has been happening whilst the temporary structure is in the car park. On several occasions I have witnessed cars parked on the brow of the hill and on the pavement which makes it difficult for both vehicles and pedestrians to pass. I understand that the landlord/tenant have made comments saying that the car park will have more spaces available once the temporary structure has been removed but surely this new deck area is being created to attract further customers which will have an impact on parking.
