We fully support the application and commend the landlord and landlady for their efforts to do all they can to keep this community hub going wherever possible during the pandemic. We observe that many of the previous comments refer to parking issues however the proposed plans would alleviate current problems as the planned decking would replace the marquee currently in the carpark and restore the original carpark apart from a couple of spaces. In addition, the fact that when the pub reopened on 17 May it was the only local in the vicinity to do so and most of the problems that occurred were a result of attendance from non-regulars. The decking would take advantage of the unrivalled views and also help to future-proof the business for potential lockdown and outdoor restrictions should these occur again in the future. As a village we should do all we can to maintain and support local businesses following an unprecedented year.
