We currently have grid lock on roads around this area and extending to affect Leeds road, Owl lane, Chidswell lane and associated streets used as short cuts. We have 250 new build on Owl lane soon plus the Bywell development adding more traffic commuting to Leeds and Wakefield. Shaw cross traffic lights cannot cope now and will have standing traffic constantly spewing pollution into the children of the Shaw cross school, last year the death of a 12 year old living close to a major road was partly attributed to pollution levels. ARE WE GOING TO DO THIS TO ONE OF THE CHILDREN AT SHAW CROSS? WHO WILL DECIDE WHICH CHILD SHOULD DIE? Add to all this and we have the proposed Chidswell 'Church' development of 1500 dwellings, Leeds road is almost stationary for many hours per day, spewing pollution into our lungs, no one will be able to get anywhere, accidents will rise and eventually someone will die, I already witness the many near misses at the Chidswell junction. Owl lane will clog up and come to a standstill at busy times due to the pressure from this proposed development, that will mean Windsor road and Chidswell lane being used as a short cut, that will then clog both junctions onto Leeds road and tempers will fray, as they do now, and accidents will happen. This is a foolish plan with no thought given to the effect on the current residents.
