Do you wish your comments to be published on the website anonymously?	No
This is a green space of vital importance to the local community. It's used daily for exercise, it provides menral health benefits and enables families to exercise together without commuting. The space provides a foil between industrial and residential areas. Trees are vital to health, the area is environmentally important to mammals and birds. The village of Hanging Heaton has only one school which is masdively oversubscribed. There are no plans for any services to be built (school, gp surgery, shop) putting strain on local services. Roads will become increasingly clogged; queuing on Leeds Rd will worsen and parking on High St will further put the safety of the primary school children at risk. The pandemic has taught everyone to value green space. We must protect that which makes our village a safe, healthy and pleasant place to live and thrive. Once destroyed, that asset xan never be regained.
