Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
This proposed site is full of wildlife buzzards,sparrow hawks, hedgehogs,rabbits,bats,owls,ducks, foxes and lots of different birds. What happens to all these animals that have made there homes here? With climate change we need to be preserving our green spaces not destroying them and the wildlife that's lives there with more houses when there's already new houses planned to be built on owl lane - with no new schools or doctors proposed to be built to support all the new housing where will everyone go? Will children be forced to go to schools further out of area because of this, causing more traffic on the roads and in turn more emissions being pumped into the air. Traffic is already terrible on Leeds road with cars for both Shaw cross and hanging Heaton schools how is more housing and more cars going to elevate this strain. I would appeal for you to re think this
