The plans to build 55 family homes, yet the area can't support the educational needs of the children from 55 more families. The green spaces which house so many plants, animals and insects are going to be destroyed. The natural drainage the land provides will disappear, putting batley town center at further risk of flooding. Bradford Road often floods due to its position in the valley. This development will mean a large portion of the warer from hanging heaton is driven straight to Bradford road! The land barrier between Soothill and hanging heaton will be gone, meaning these areas lose identity and possibly property value.
