Address of the site or building:	Land adj, High Street and Challenge Way, Hanging Heaton, Batley
Postcode:	WF10 4UA

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
More and more houses are been built in this area, taking away the countryside around it isn't only going to cause issues such as congestion but it's also going to affect nature in the habitat. The roads at present are ridiculously busy, the congestion is growing yet the B roads cannot handle this. Traffic queue is horrendous as it is on Leeds road, the dual carriage way cannot handle more This will them also drive property prices down on Leeds road. It's also becoming a very dangerous road, we are seeing more and more serious accidents on there, this will add to this problem we currently have. As of taking the land on from the of the water tower isn't enough, that is going to make the area very unsightly There is not enough schools in this are the accommodate further people. The land they are ti destroy has been a saviour over covid, if it has not of been there for people to venture out for their mental well being there would have been more pressure on the nhs having to treat people for depression, anxiety and people who could have well been suicidal The answer is not to take every bit of land on an already well built up area, people need places to walk, to meet , to escape. Leave our land alone, you've taken enough away , you are destroying it
