Postcode:	WF10 4UA

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
I would like to write to object to this development due to the devastating impact it will have to the site, residents and surrounding areas. How many more developments do we need in this area? Where are all these people going to go to school, GP, dentist etc? Planting a few trees around the site will in no way compensate for the destruction that the development will cause. The effect on all the living species on the site is surely going to be catastrophic? We read in the supporting documents around pollution, noise, traffic etc that 'levels' in most case will be appropriate... how can this possibly be the case with the vast numbers of houses plan in the area ? Traffic for one thing is going to create major issues of safety, high street and Challenge Way have had increasing numbers of traffic over the years and this will only add more and more exasperating this problem. As a resident of 40+ years we have seen the green areas disappear, when does it stop ? At what point does morality trump money ?
