Do you wish your comments to be published on the website anonymously?	No
I would like to strongly object to this development again. This land and the trees planted were to protect the residents when Challenge Way was constructed from noise pollution etc. The removal of the trees will be detrimental to existing residents and the new occupants who will be very near the road. We already have a road at the front of the house which will get even busy when all the developments planned begin. There is so much pollution already ,aren't we supposed to be cutting down on this and planting more trees to help the environment not cutting them down. Plans already passed for lots of houses around us shouldn't these be built first to see how roads, schools hospitals etc can cope. Please think carefully before this development goes ahead, they say there is a shortage of houses but there will be a shortage of hospital beds with all the breathing problems that will be caused by the pollution.
