The area is green fields and should remain that way. The foot paths that have existed across these fields have been in regular use for centuries, yes, centuries! and domestic housing would detract from our existing and ongoing enjoyment of the rural aspect. In other words this plan would have a detrimental effect on the lives of the people who already live in the area. Will you compensate us for the destruction of our habitat if these plans are passed. Existing local housing would fall in value as a result. The area would be less desirable to live in because of the overcrowding caused. I would expect a reduction in Council tax because the area has become spoilt by too much housing. With the plan to build domestic housing on Owl Lane already passed, this new development is a step too far. The roads will not take more vehicles, the schools will not take more children, the infrastructure will not stand an influx of more people. 55 houses could result in an increase of more than 100 children all requiring school places, more than 100 vehicles, all requiring parking and road space on top of the numbers already generated from the Owl Lane development. This area cannot stand such a vast increase in numbers. I strongly object to these plans and request that the application be denied. In answer to the next question, you should publish these comments in my name, the question you printed is ambiguous. You should know better!
