

About the application

Application number: 2021/91871	
What is the application for?:	Erection of residential development (55 dwellings) including access and associat
Address of the site or building:	Land adj, High Street and Challenge Way, Hanging Heaton, Batley
Postcode:	WF10 4UA

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
2021/62/91871/E Green space is important to the local area. The socio-economic indicators of the area show poor health and lower incomes. The green space is a positive resource for the local area and community. It provides a space for wildlife and got children to enjoy that wildlife locally without the expense and resource of needing to travel. Daily buzzards, kestrels nest, roost and hunt. Bats are regularly seen in the trees and grass land. The space creates a break from the road pollution. Heavy traffic including lorries use hugh street and challenge way / grange road. More people will equal more traffic and less buffer from the pollution and noise caused to existing homes increasing the poor health outcomes locally. The two roads are 30 mph but speeding is normal. There are 2 schools nearby and the concern is this development will encourage more traffic and speeding putting lives in danger. There is not much green space left in the area and it must be preserved. Without it the area will suffer, likely taking those who can seek out and afford to move elsewhere where there is green space to enjoy.
