The fields adjacent to High Street should be protected from development. These fields are regularly used by the local people for walks as they are a peaceful and quiet place for people to exercise and take in the beautiful view across Batley and the surrounding area. During the last 18 months this outdoor space has helped people with their mental health during lockdown and restrictions Being able to go outdoors into an area that is open, natural and supports a wealth of wildlife has got people through a tough time. The wildlife that use this land needs to be protected. Only last week me and my partner saw two Red Kites hunting on the fields, previously we have seen rabbits and field mice. High Street and Grange Road are already extremely busy with volumes of traffic. Additional housing will increase the volume further, along with increasing fume and noise pollution for the residents of Hanging Heaton as well as increased congestion along both roads.
