I would like to object to this planning application. I do not believe the impact surveys for noise, traffic and environmental issues have been undertaken correctly as they were completed when we were still under Covid restrictions. There has already been development locally on Owl Lane in recent years. There is another large development also now underway there. There is further deveoplment planned locally for Soothill at the top of Grange Rd. There is not enough infrastructure to support another local development and a fast food drivethrough was recently refused planning between Hanging Heaton and Shaw Cross due to concerns around increased traffic and possible anti social behaviour. These concerns all apply for this application as well due the close proximity. This is one of the last unspoilt areas locally it is well used by locally residents and has an abundance of wildlife. This would all be ruined for current residents and future generations. There is brownfield land at the bottom of Grange Road that could be utilised.
