

About the application

Application number: 2021/62/91871/E	
What is the application for?:	Erection of residential development (55 dwellings) including access and associat
Address of the site or building:	Land adj, High Street and Challenge Way, Hanging Heaton, Batley
Postcode:	WF10 4UA

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
Natural habitats will be taken. Birds of prey fly in hanging Heaton and there habit will be destroyed. Air pollution will rise from the removal of natural habitats and the increase in householders who own cars. Noise will increase due to increase in houses and cars and due to the removal of natural sound barriers created by a natural habitat. Quality of life for existing residents will be reduced as they will be unable to see and explore the natural habitat and local children will have little outdoor space to walk and explore unless along polluted car filled streets often with dangerous speeding cars already on high street, avoiding the speed bumps on neighbouring grange road. The character of the village will be further reduced. Surely this is not in line with the governents COP 26 and the need to plant more trees? There are already hundreds of houses been built near owl lane and off grange road. Air quality and public health is going to be massively affected. The level of traffic already is at breaking point on roads where kirklees council cannot maintain the infrastructure at present. Excess traffic results in poor air quality congested roads and an angry and a frustrated community who cannot access local places. The reduction in green space will affect the local community and their mental health. At a time when there is a mental health crisis, I ask again, is this in line with government thinking. The houses would be situated near to a local school, air quality would be reduced and the level of traffic increased from local traffic getting from one place to another. Please remove my name and address from print.
