I object strongly to this proposal which has been updated. As a frequent road user in the area, and visitor to Northorpe Hall to access their services, I am horrified at the prospect of the huge amount traffic which will be generated. The roads are so narrow and dangerous. Everyone who lives around here knows how devastating the floods are to properties and to accessing the town, schools and local services. This proposal contradicts the council's Green agenda by both destroying biodiversity, by increasing traffic and noise pollution. It's all well and good talking about sustainability in terms of walking and cycling, have considered how dangerous these activities are now? Please consider the impact on people and refuse this inappropriate proposal. Thankyou.
