To whom it may concern

I writing to oppose the new planning application for more storage/garage at Harrisons trim supplies at Gladstone house ,Gladstone street .

As I live across the road from this and it all ready causes chaos most days with large deliveries lorries blocking the street

staff arriving to work between 6/7am standing around outside shouting in the summer with little respect from the surrounding houses.

I feel that if they are at a point where the business has again outgrown the premises , it maybe time to look for a more suitable one in a more suitable area THAT is not a residential street .

I am woken up many morning with the forklift truck driving up and down the road and have had an incident where one of the delivery drivers had crashed in to my car and not reported this matter to me .

And after the last extension was built placing the fire exit on the end of the new building the door is always probed open over looking all the opposite houses

I feel that the new extension will make it even more difficult for the drivers both from them sending there stock out and for them receiving stock ,as it will make the access small. meaning the road will be more congested

it would seem to me that the opening hours are getting longer.

Yours
