HVPC Comment:	Support the development in principle, though consideration needs to be given to: 1. Highways issues regarding volume of traffic from Hollowgate and Lower Mill Lane. 2. The management of parking to the complex given the number of residences and spillover visitor parking; give thought to promoting schemes such as carpooling. 3. Managing the disruption to Hollowgate and Lower Mill Lane during construction. 4. More detailed information on how the development will address the climate emergency regarding renewables and sustainability (charging points, ground source heating, solar panels etc). Applicant should reflect on the guidance from the submission Holme Valley Neighbourhood Development Plan which states that, “New major developments should install district heating from renewable resources and will be expected to deliver an on-site heat network, unless it can be demonstrated that this would render the development unviable. In this case, developers must demonstrate that they have worked with 3rd parties, commercial or community, to assess the opportunity.” Holme Valley Neighbourhood Development Final Submission Plan, June 2020 p140 Policy 12: Promoting Sustainability
