Having inspected the drawings for the said development it has been noted we have been declined access using a vehicle over the bridge to Lower Mill Lane. Under article 2 within our deeds it clearly states that the owners for the time being of the adjoining property known as Prickleden Mill or any part or parts thereof the right to pass and repass on foot and with vehicles over the bridge crossing the River Holme which is shown and marked on the plans held with the HM Land Registry. Earlier plans to this development have clearly allowed for this situation. As the development would have foundations which require pile driven construction an assurance as to not damaging our building or retaining wall is sort as they will be in close proximity. This is not an objection in principle but to one of concern that details are adhered to.
