This new planning request is even larger than the original request that was put in. This will be the only two storey wrap around extension on the street, and is out of keeping with the other houses. Further, as this is larger than the previous planning application it will have an even greater detrimental effect on sunlight to my property, and a give a greater chance of being overlooked. The size of the extension will dwarf my garden and seriously impact on my enjoyment of the garden. I raised objections to the previous much smaller application on the grounds of its size. This new application is effectively taking a plot that was a house with a garden and turning almost the entire plot into a house. This latest application will represent an increase in the size of the existing house of roughly 200% of its existing area, which is un-neighbourly and will be detrimental to the entire road.
