<p>I strongly object to this planning proposal as 277 new homes so close to Bradley Bar roundabout will:</p> <ul style="list-style-type: none">- Cause even more traffic congestion than there is now - the roads already struggle with the amount of traffic and without improved infrastructure the new houses will create gridlock at peak times.- the local schools are already full, unless additional schooling is available then the people living in these new houses would struggle to get their children into the education system locally.- Be environmentally destructive thus reducing the already fragile and essential balance of nature in the area
