I have a strong objection to the proposal of making the Slipper Lane side of the plan into a wild flower field instead of the original application which was for trees and shrubs. I understand this proposal is due to the contractor making the banking unsuitable for tree planting. Hindsight is a wonderful thing especially when it saves money. Wild flower meadows are very beautiful in the right place but for three quarters of the year they are slightly unsightly scrub / hay like areas. They require a certain amount of management and I simply don't believe that either the contractor or the commercial leases holders of the adjacent plots will undertake this management. There has to be a more sustainable solution to the problem the contractor has created for itself and I would respectfully ask the planning committee to require them to go away and research a better way.
