Following the first extension (2nd floor above the garage) the amount of sunlight falling on our garden (16 Holly Grove) was seriously reduced. More recently the back garden was raised approx. 45cm with the dirt dug out to enlarge no. 18's patio and house extension, this together with a new fence once more reduced the amount of sunlight received. With a further new 2 storey extension to the property rear, besides overpowering our garden (16 Holly Grove), it will cause number 18's shadow to seriously reduce sunlight further. Because of the aforementioned I request that this planning permission is refused.
