<p>We are in total agreement with other objections in respect of space for parking and the problems that large and medium sized vehicles would have in turning round should more cars be parked in and around the turning area. We would also like clarification of point 1.11 of the Planning Statement which states that 'there will rarely be more than the single house vehicle parked there'. Will this be in addition to the manager's and carers' vehicles? If so, there could be up to four vehicles parked during the day and potentially 5 or 6 on change over days.</p> <p>We also have to disagree with the agent's assertion that the house would be just like a normal family home because it clearly would not. Neither the carers nor the children are likely to have any ties or affinity to the area.</p> <p>The carers are workers paid to look after the children and whilst I have no doubt that they would do an excellent job, their families, friends, and lives are mainly elsewhere.</p> <p>Equally the children, who are likely to be educated away from the local area, would find it difficult to meet their friends outside of school.</p> <p>If the children have been involved in any unsocial activities, or have been forcibly removed from their parental homes there is the added risk that family members and friends could find out where they are being housed and cause additional problems in the neighbourhood.</p>
