Ref: planning application **2021/92471** 114 Hartshead lane ,Hartshead

To avoid confusion, I am the owner and resident of the property numbered 116 on the block plan, but the house number is 118

Dear Planning ,

I am writing to object to this planning application for the following reasons .

- 1, On the rear elevation plan the 1<sup>st</sup> floor extension and fitted with patio type doors will overlook onto my driveway, garage and rear gardens resulting in a loss or privacy for myself and any future occupiers
- 2, On the side elevation facing onto the front of my property and garden, the roof window to be fitted onto the already existing roof ,will also further add to a loss of privacy for myself
- 3, On as will the two roof windows which are to be fitted to the 1<sup>st</sup> floor extension, one of which will have a clear view into my first floor bedroom window on my gable end
- 4,I believe these 3 rooflights and the extension could create a precedent making it difficult to object to any similar proposals overlooking my property .

Yours Sincerelv
