

Locations where it is not possible to erect a boundary treatment on the line of the legal ownership, an additional line will be identified on the above plan to illustrate the approximate fence location. The boundary fence will therefore be erected as close to the title boundary as possible without causing damage to existing features. This may be a result of one of the following items:

- Protected woodland/hedgerow
- Other existing features
- Complex retaining structures

The resident is responsible for the maintenance of all items within their plot boundary identified by the red line.
