Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
I would respectfully request that the following areas of concern and objections be given due consideration when this Planning Application is discussed. 1. The Proposed planning design, implementation, and on-going use as per the Planning Application 2021/92613 to be limited to, and contained within the area outlined by the red continuous line, and to conform to that as shown on the Planning Application drawing marked, Section A-A. 2. The entrance and exit to the proposed Private Arena, Midgely Barn, Upperthong. Holmfirth, HD9 3RE be limited as shown on the Planning Application Block Plan contained within the red bordered area. 3. The use of our shared private driveway and entrance to the properties, 4,6,8 & 10 Wickens Lane not be used by any vehicle, animals, and people or for any purpose, at any time in relation to the proposed construction, development and on-going use of the Private Arena and the land leading up to and including, as this would create a significant nuisance in terms of noise, fouling of our private driveway, and other detritus deposited. 4. Regular use by contractors' vehicles during the construction process, and the on-going regular use by vehicles and horses would have a significant and detrimental effect on neighboring properties and the private driveway infrastructure. 5. It would impact on the traffic flow and safety to pedestrians at this narrowed, single carriageway area of Wickens Lane. 6. The manure pile to be far enough away, and insufficient in size so as not to be detrimental to our home environment.
