I object to the potential loss of yet another garden and in this case a particularly well maintained one! This has the effect of degrading the amenity value of the area. The house proposed appears to be extremely large and out of proportion to the surrounding properties - once again a case of trying to fit the largest possible (and most expensive) house onto the smallest plot. I also strongly object to the loss of hedgerows yet again - a trend which is becoming all too familiar in Skelmanthorpe - again with the loss of amenity value, bird habitat and, I would have thought, counter to the Council's 'greening' policies and work towards zero carbon. This development would be a retrograde step for our local environment and should be refused in its present form.
