While I would support the change of use to dwellings there are two aspects of the application I wish to object to. 1) The use of high close boarded fencing rather than dry stone walling matching the existing to the rear gardens is detrimental to the visual amenity of the area. 2) The provision of 4 parking spaces along New Hey Road is also detrimental to visual amenity and probably dangerous when you consider the speeds of passing traffic. Rather this should be tucked in behind the dwellings off Hey Lane.
