Planning Application - 2021/93013 My objection to this application is due to the fact that not only will the proposed development overlook and overshadow one side of my property, it will now overlook and overshadow the other side of my property. My bathroom at the back of my property has limited light as it is, should this proposed development go ahead it will give virtually no light in that room. The scale of the works means that the development will have an oppressive impact on the surrounding houses. It's scale is such that it will be out of character with its surroundings. From a road safety aspect taking the majority of the driveway out of this property will already impact on a busy road where there have been several car crashes in the past year on the crossroad, as well as causing more cars to park on the top of Syringa Street, again where there have been several car crashes in the last few years.
